*NO.1 BRAND IN ROOM VENTILATOR

Indoor Air Concern

Research has shown that people spend 90% of their time indoors (home, office, and inside car) and a growing body of scientific evidences support studies that indoor air, especially air-conditioned room is 10-100 times more polluted than outdoor air. Most people however, are unaware of the effects that poor indoor air quality can have on their health.

Hazardous pollutants such as mold, cigarette smoke, radon, bacteria, carbon dioxide, allergens and asbestos fibers poses great health risk such as asthmatic attacks, hypersensitivity pneumonitis, humidifier fever, severe migraine and respiratory disease.

Why AireGard ?

AireGard ventilators provide one simple, reliable and cost effective solution to this problem. AireGard ventilators are equipped with ducting outlet so that stale air and moisture are actually extracted out of your room for hygienic air circulation.

As new buildings have become more air tight, proper air ventilation is essential and important to reduce hazardous pollutants that can cause health problems for its occupants. AireGard protects and helps you to create a cleaner, fresher and healthier indoor environment.

Specification

Model	AXA-170			
Motor Type	Impeller Blades with Guide Vanes			
Air Speed	Dual			
Motor Speed (rpm)	2390	SPEED 2	1980	SPEED 1
Air Flow (cfm)	164	SPEED 2	129	SPEED 1
Power Consumption (w)	40	SPEED 2	36	SPEED 1
Noise Level (dB)	30	SPEED 2	25	SPEED 1
Duct Size (mm)	100 (4")			
Panel (mm)	-			
Mounting Size (mm)	-			
Height (mm)	182			
Weight (kg)	1.8			
Installation	Vertical / Horizontal Mounting			

Optional Accessories

AA-LR4GI
4" Round Internal Aluminium Louver

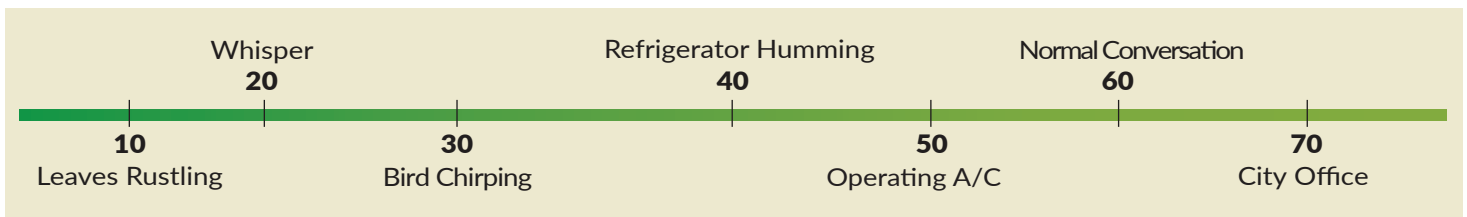

AA-LRE4AL
4" Round External Aluminium Louver

AA-FD4/4
10 meter 4" Flexible Hose

• All specifications are subject to change without prior notice.
** 3 years warranty for all ventilator model with T&C apply.
