*NO.1 BRAND IN ROOM VENTILATOR

Indoor Air Concern

Research has shown that people spend 90% of their time indoors (home, office, and inside car) and a growing body of scientific evidences support studies that indoor air, especially air-conditioned room is 10-100 times more polluted than outdoor air. Most people however, are unaware of the effects that poor indoor air quality can have on their health.

Hazardous pollutants such as mold, cigarette smoke, radon, bacteria, carbon dioxide, allergens and asbestos fibers poses great health risk such as asthmatic attacks, hypersensitivity pneumonitis, humidifier fever, severe migraine and respiratory disease.

Why AireGard ?

AireGard ventilators provide one simple, reliable and cost effective solution to this problem. AireGard ventilators are equipped with ducting outlet so that stale air and moisture are actually extracted out of your room for hygienic air circulation.

As new buildings have become more air tight, proper air ventilation is essential and important to reduce hazardous pollutants that can cause health problems for its occupants. AireGard protects and helps you to create a cleaner, fresher and healthier indoor environment.

Specification

Model	SQS - 600			
Motor Type	Turbine			
Air Speed	Dual			
Motor Speed (rpm)	1380	SPEED 2	1188	SPEED 1
Air Flow (cfm)	620	SPEED 2	459	SPEED 1
Power Consumption (w)	192	SPEED 2	146	SPEED 1
Noise Level (dB)	37	SPEED 2	32	SPEED 1
Duct Size (mm)	200 (8")			
Weight (kg)	14.2			
Installation	In-Line Mounted			

Optional Accessories

AA-LR8GI
8" Round
Aluminium Louver

AA-LRE8AL
8" Round External
Aluminium Louver

AA-AD8/10
10 meter
8" Flexible Hose
